

solidsteel

MADE IN ITALY SINCE 1990

Painting by Dora Bellini - "Solidsteel 1990-2020".

Dear Audio Enthusiast,

tradition, innovation and boundless passion for music: this is Solidsteel.

Every year we are focused on continuing our historical activity, constantly improving our products and services. We care to follow the evolution of audio components in deep respect of music lovers needs, to whom we dedicate the utmost attention, on every single detail.

This year we are proud to celebrate our 30th Brand Anniversary, a milestone that makes us joyful for what built over the years on the project.

This important stage motivates us even more in continuing our work. That's why we thank you and all audio-video passionates who gave trust and attention to what we do since 1990.

Without your support we would never have been able of developing our business reality.

As always, we will continue to strive to always being the reference Brand to "serve music, nothing else".

Gaetano Conti & Solidsteel Team

PRICE
(TAXin.)

WS-5		EUR 449,99
------	--	------------

MOD.	DESCRIPTION	Ext DIMENSIONS. (LxPxH mm)	Inn. DIMENSIONS (WxDxH mm) & Weight	COLOURS
WS-5	Turntable Wall-Shelf	550x470x160/50	550x470x160/50 13 Kg	Black

The **WS-5** is a rock-solid platform delivering reference-level isolation at an attainable price, weighing in at a massive 13 Kg (28 lbs). Form follows function, the **WS-5 supports even the heaviest of turntables**. Heavy gauge steel for the perimeter and the massive wall plate are complemented by graceful ouches adding air and life to what might otherwise have been a monolithic design. Rated to handle **up to 60 Kg (130 lbs)** with a large shelf (500 x 410 x 19 mm | 19.5" x 16.25" x 0.74"), the WS-5 works with almost any 'table made. Ridiculously sturdy, WS-5 touts a massive (50 mm | 2") tall by (25 mm | 1") thick steel outer frame welded to an extremely thick (150 mm | 6" tall) back plate. Ditto the proprietary Duraluminum isolation cones. **Leveling of the MDF shelf** (500x410x19 mm, laminate black finish) may be fine-tuned via the **four cone cups** using an Allen key (always included). The Italian-made WS-5 can even be mounted on brick and concrete provided you employ the proper connectors.

VL SERIES

MOD.	DESCRIPTION	Ext DIMENSIONS. (WxDxH mm)	Inn. DIMENSIONS (WxDxH mm) & Weight	COLOURS
VL-2	Vinyl Storage Hi-Fi Rack	1280x410x465	480x410x325 2 Shelves, 26 Kg	Black Walnut White Walnut

VL-4	Vinyl Storage Hi-Fi Rack	1280x410x958	480x410x325/225/225 4 Shelves, 51 Kg	Black Walnut White Walnut

MOD.	RETAIL PRICE (TAXin.)
VL-2 Black/White	EUR 679,99
VL-3 Black/White	EUR 949,99
VL-4 Black/White	EUR 1.199,99

Our catalog is finally enriched with a new and **innovative** range of supports designed to meet the most current needs of music lovers. Whether you already have a large collection of LPs, or you are just enriching it, whether you have a Hi-Fi system, or you are just setting it up step by step, this fantastic new product range is a perfect solution for all ambients.

By depending on various LP's dimensions, **you can storage at least 120 records per each level.** If your collection is too big, do not worry. We have Extre-Kits for expanding the available space.

The **frame** is made up of parts of our famous **S Series**, all its screws are galvanized, frame pillars are made of anodized aluminum, carefully filled with an **absorbent phono sponge** to dampen vibrations.

The various metal particulars are all galvanized and finished in powder-coated for avoiding any risk of rust over time.

The VL Series is composed of **MDF shelves - 1280x410 mm**, with a thickness of 22 mm - finished with high quality polymeric laminates in Walnut finish.

S Series regulable spikes and S Series Pads always included.

S2 SERIES

Stands specifically designed for essential solutions, available only with three, four or five-level configurations.

The "**S2 Series**" is our **entry-level product range**. This furniture is entirely modular and consists of shelves in MDF wood (580x430 mm, thickness 22 mm) in black melamine assembled on a metal frame of excellent Italian quality. The tubes are in anodized aluminum (30 mm in diameter); the screws, the upper and lower terminals made of galvanized metal (anti-rust), subsequently powder-coated; the traditional adjustable steel tips (M8 of thread for eventual replacement with wheels, not sold and not included).

Products always include our "S Series Pads - protective floor discs in Inox", for a perfect efficiency of the stand.

The article is designed to support and enhance audio components such as: turntables, digital sources / players, amplifiers, DACs, streamers, radios, signal equalizers and portable PCs (well placed on the top shelf).

It is not possible to modify the heights between the shelves with any customization kit.

Available only in black finish.

AVAILABLE ONLY FROM US OR ON AMAZON (IT, DE, FR, ES)

The **“S3 Series”** is our **traditional range** of Hi-Fi racks.
These products are a concrete expression of our passion for music and for the audiophile world.
All the materials are carefully made and selected, exclusively of Italian origin. **The frame** is made by galvanized metal parts, varnished with powder, with screws and anodized aluminium poles filled with damping material (sound absorbing foam). The bottom spikes are our historical adjustable Inox tips (M8 of thread).
The shelves (of dimensions 580x430 mm, with 30 mm of thickness) are in **ennobled MDF wood** finished with beautiful polymer laminate of high quality.
Since the racks are all modular, each level’s height can be customized (min 145 mm and max 365 mm) and it’s possible as well to add extra shelves after the first purchase.
Our **“S Series Pads - protective floor discs”** are always included into each S3 product.

The “S4 Series” is the alternative wide version of our traditional range of furniture for Hi-Fi and A/V components.

Ideal as well for TVs within 49” of width. The inner shelves proportions are the same adopted for the S3 Series racks.

All the materials are carefully made and selected, exclusively of Italian origin. **The frame** is made by galvanized metal parts, varnished with powder, with screws and anodized aluminium poles filled with damping material (sound absorbing foam). The bottom spikes are our historical adjustable Inox tips (M8 of thread).

The shelves (of dimensions 1114x430 mm, with 30 mm of thickness) are in **enobled MDF** wood finished with beautiful polymer laminate of high quality.

Since the racks are all modular, each level’s height can be customized (min 145 mm and max 365 mm) and it’s possible as well to add extra shelves after the first purchase.

Our “S Series Pads - **protective floor discs**” are always included into each S4 product.

"X Plate"'s dimensions of 450x405x19 mm

The "S5 Series" is the **most advanced** line between our "S Series" range of traditional audio furniture.

These racks are technically featured by their **double-adjustable-shelf system**: the lower shelves are supporting the higher ones. These small surfaces (called "X Plates") are positioned on the larger ones thanks to 4 aluminium cones per each level. Once regulated, every shelf is able of damping vibrations at its best thanks to our engineered system. **Highly recommended to turntable and valve amplifiers owners.**

The frame is made by galvanized metal parts, varnished with powder, with screws and anodized aluminium poles filled with damping material (sound absorbing foam). The bottom spikes are our historical adjustable Inox tips (M8 of thread).

The shelves (main: 584x430 mm, with 30 mm of thickness; "X Plate": 450x405, with 19 mm of thickness) are in **enobled MDF** wood finished with beautiful polymer laminate of high quality.

Since the racks are all modular, each level's height can be customized (min 145 mm and max 365 mm) and it's possible as well to add extra shelves after the first purchase.

Our "S Series Pads - protective floor discs" are always included into each S5 product.

The “HY Series” is our **Hyperspike Junior** with a four-pillar stainless steel frame configuration.

Since their launch in 2018, these **High-End racks** became popular in a few months and are the perfect choice for those audiophile lovers who desire to adopt an excellent stand with capacious shelves, heavy hardware parts and awesome finishes at an affordable price.

The frame is exclusively made by **stainless steel Inox parts** (40 mm of diameter) turned from full. The bottom parts are equipped by our traditional **adjustable inox spikes** (M8 of thread).

The shelves (dimensions of 600x500 mm for the “Standard” version; 780x500 for the “Large” one; 30 mm of thickness) are in **MDF ennobled wood**, lacquered in a beautiful flat black finish.

Since the racks are all modular, each level’s height can be customized (min 145 mm and max 325 mm) and it’s possible as well to add extra shelves after the first purchase.

The “**HF Series**” is our famous and **historical Hyperspike line** with a four-pillar frame made of full stainless steel parts.

Introduced for the first time **in the audio market in 2006**, it is certainly an iconic symbol of our best productions.

These incredible **High-End racks** are a guarantee for your audio system: a support of exceptional value with a design carved over time, of unquestionable Italian charm.

The frame is exclusively made by **stainless steel Inox parts** (40 mm of diameter) turned from full. The bottom parts are equipped by our **historical Hyperspikes**.

The shelves (dimensions of 645x561 mm, 30 mm of thickness) are in **MDF ennobled wood**, lacquered in three different beautiful finishes: flat black, gloss black and gloss white. The glossy finishes are very resistant against scratches.

Since the racks are all modular, each level’s height can be customized (min 145 mm and max 365 mm) and it’s possible as well to add extra shelves after the first purchase.

The **HF Élite Series** is a **premium range upgrade** designed for enriching High-End audio systems.

A top class rack with **veneer wood** shelves in three beautiful finishes: American **Natural Walnut**, Indian **Rosewood** and Indonesian **Ebony Macassar** (with a gloss transparent varnish for an extra luxury effect).

The frame parts of these stands are the same adopted for the HF Series models.

Timber is a traditional material able of being valued in every ambient, whatever a living room, a music or studio room you choose as listening space.

Our aim is always to make products able of lasting in time, even in their look and design.

The "HW Series" is our top **Hyperspike** range for what concerns the **A/V furniture** in our catalogue.

The simplicity of its design is based on the elegance and refinement of its lines. A rack capable of being placed perfectly in any space, whether it is a modern home or a more classic environment. It is no coincidence that it is the product most requested by architects and interior designers within our catalog.

Ideal for TVs up to 49 "in size, there is also compatibility with some 55" models for the "L - Large" version.

The frame is made by stainless steel hardware parts from our Hyperspike range and under request it is also possible to customize it with spikes for increasing the technical level for the High-End components.

The shelves (dimensions of 1090x410 mm for the "Standard" version; 1280x410 for the "Large" one; 30 mm of thickness) are in **MDF ennobled wood**, lacquered in three finishes: flat black, gloss black and gloss white. Since the racks are all modular, each level's height can be customized (min 145 mm and max 245 mm without spikes; min 145 and max 346 mm with HY/HF spikes) and it's possible as well to add extra shelves after the first purchase.

HP-4	EUR 6.199,99

The “HP Series”, known as “Hyperspike Pr stige Series” is our absolute Top range of High-End audio furniture.

Officially launched in 2016, in a short time it has become a symbol of **our excellence in the world**, being the first audio furniture with ceramic shelves.

These exceptional products are the result of years of studies, tests and technical innovations: **the frame** is made by stainless steel with adjustable Hyperspikes in every position; **the ceramic shelves** (dimensions of 580x480, 30 mm of thickness) have scratch-proof surfaces and are filled inside with polyurethane foam and resin on the edges. Their below side is in thick laminate. Exception made for where in ceramic, every shelf is carefully lacquered.

Since the racks are all modular, each level’s height can be customized (min 155 mm and max 375 mm) and it’s possible as well to add extra shelves after the first purchase.
